BEAUTYGEN

Activates the skin's 'beauty gene'.

Activates the skin's 'beauty gene'. Scientists have come closer to the secret of a youthfully beautiful skin. They have managed to decode the skin's 'beauty gen'. Beautygen Snow Algae Extract activates the skin's 'beauty gen', protects collagen fibers and improves elasticity. Snow algae verifiably increase skin cell activity and reduce damages caused by UV radiation. In addition, their anti-oxidative effects are particularly convincing. This effect is enhanced by Anti Age Peptides; they support the skin's repair mechanisms and slacken the aging process. For a rejuvenated, renewed complexion.

Benefits

With the extract of alpine snow algae, Beautygen activates the 'beauty gene' and protects collagen fibers for greater elasticity and a rejuvenated complexion.

Target Group

Clients who are looking to rejuvenate and renew their skin and who prefer scientific active ingredient concepts and innovative textures.
